Song game
Drums

Game: Circle formation. One person is "it" and walks around the outside of the circle, tapping each child in the circle. On the last word "it", the child tapped on that word runs after "it". If "it" is caught before getting back to open space, they sit in the middle (goose pot). If they're not caught, they're safe in their spot. The game continues with the chaser becoming "it".
